Upcoming Assignments:

Each class will be given playing assignments during school based on what sections need extra work.

Most beginner band students have at least earned their YELLOW tag on band karate! Please check with your child and see where they are! They are welcome to make recordings with a metronome and send them to their director in Schoology. (Percussion beginners do not participate in band karate)

Students should be practicing between 10-20 minutes daily or around an hour for the entire week. The best way to ensure student success is to create a regular practice schedule with your child in a location with minimal distraction that allows for proper posture.
